

## Institution's timeline of internationalisation

### Main areas of interest:

- What has been? Who are/were involved in the internationalisation at first? (past)
- What does it look like now? In which areas did the institution develop over the past years? (present)
- What are the development areas for the future? How does the dream fit in? (future)

On the horizontal axis:

past – present - future in years – e.g.: 1992 1998 ..... 2001...2007.....2010.....2015.....2017.....2021

On the vertical axis:

take into how these 'subjects' have changed/widened/narrowed over the years:

- target/strategy: what did you aim for or did you aim for something at all
- target groups: pupils, labour market, (regional/structural changes), partners/countries, staff, management
- resources: staff, financial issues, organisation itself
- training system: curricula
- ... *add your own relevant remarks/subject(s)*

### Focus the future perspective with these questions:

- organisations mission and vision
- development areas
- new insights into the work
- <sup>1</sup>quality assurance
