For example, preparatory visits can be organised to better prepare mobility of participants with fewer opportunities, to start working with a new partner organisation, or to prepare longer mobility activities. Preparatory visits cannot be organised to prepare a course or training activity for staff.

Quality Standards

- **Practical arrangements:** the beneficiary organisations must ensure the quality of practical and logistic arrangements (travel, accommodation, visa applications, social security, etc.). If these tasks are delegated to the participant or a service provider, the beneficiary organisation will remain ultimately responsible for verifying their provision and quality.
- **Health, safety and respect of applicable regulation:** all activities must be organised with a high standard of safety and protection for involved participants and must respect all applicable regulation (for example regarding parental consent, minimum age of participants, etc.). The beneficiary organisations must ensure that their participants have appropriate insurance coverage, as defined by the general rules of the Programme and the applicable regulation.
- **Selection of participants:** participants must be selected through a transparent, fair and inclusive selection procedure.
- **Preparation:** participants must receive appropriate preparation in terms of practical, professional and cultural aspects of their stay in the host country. The preparation should be organised in collaboration with the hosting organisation (and the hosting families, where relevant).
- **Monitoring and mentoring:** where relevant based on the format of the activity, the sending and hosting organisations must identify a mentor or a similar key person who will be following the participant during their stay at the hosting organisation and who will help them achieve the desired learning outcomes. Particular attention should be given to the introduction and integration of the participants at the hosting organisation, and to the monitoring of the learning process.
- **Support during the activity:** participants must be able to request and receive support from their hosting and sending organisations at any time during their mobility period. The support should be defined before the mobility takes place. All participants must be informed about these arrangements.
- **Linguistic support:** the beneficiary organisation must ensure appropriate language training, adapted to the personal and occupational needs of the participants. The beneficiary organisation must ensure that the language training is funded by the funding provided by the Programme for this purpose.
- **Definition of learning outcomes:** the expected learning outcomes of the mobility period must be agreed for each participant or group of participants. The learning outcomes should be defined before the mobility takes place. The form of the agreement will depend on the type of the activity.
- **Evaluation of learning outcomes:** learning outcomes and other benefits for the participants should be systematically evaluated. Results of the evaluation should be used for recognition whenever possible.
- **Recognition of learning outcomes:** formal, informal and non-formal learning outcomes and other results achieved by the participants in mobility activities should be used for recognition whenever possible.

IV. Sharing results and knowledge about the programme

- **Sharing results within the organisation:** beneficiary organisations should make their participation in the Programme widely known within the organisation and create opportunities for participants to share their mobility experience with their peers. In case of mobility consortia, the sharing should take place in the whole consortium.
- **Sharing results with other organisations and the public:** beneficiary organisations should share the results of their activities with other organisations and the public.
- **Publicly acknowledging European Union funding:** beneficiary organisations should make their participation in the Programme known in their community and in the wider public. Beneficiary organisation also must inform all participants about the source of their grant.

Subscribing to Erasmus Quality Standards
