Isparta Governorship

Provincial Directorate of National Education

Isparta Provincial Directorate of National Education (Isparta MEM) is a state institution in charge with the planning and coordination of all kinds of educational and training activities in pre-school, primary, secondary and adult education in Isparta. Our institution is serving to 51 Kindergartens, 175 Primary Schools, 127 Secondary Schools, 88 High Schools.

In addition to these kinds of schools, there are 9 schools for only students who need special education. Totally, we have 450 schools in the province. In these schools, we give education to 71.153 students by the help of 7.351 teachers

The Erasmus+ programme offers unique opportunities for VET institutions across Europe.

This presentation will address;

- how companies build tomorrow's workforce today,
  - how VET institutions in Turkey cooperate with companies in Europe,
  - internship opportunities for students and opportunities in various sectors in our country; especially in our city, Isparta;
- and a brief information about our city.

# Companies and Students Hand in Hand: Building the Future Workforce

Companies and Students Hand in Hand:

Building the Future Workforce

**For Companies:**

**•Knowledge Sharing & Innovation**

Share industry best practices and benefit from new tools, techniques, and ideas that improve business outcomes.

**•Recruitment Opportunities**

Spot top talent for future roles and expand your talent pool with motivated, skilled interns.

**•Long-Term Partnerships**

Build lasting relationships with educational institutions, leading to ongoing collaboration and a steady flow of skilled interns.

Companies and Students Hand in Hand:

Building the Future Workforce

**For Companies:**

**•Hands-On Training & Mentorship**

Provide real-world experience to talented international interns while nurturing the next generation of professionals.

**•Cultural Exchange & Diversity**

Gain fresh perspectives and enhance communication with students from diverse cultures, boosting creativity and innovation.

Companies and Students Hand in Hand:

Building the Future Workforce

**For Students:**

**•Skill Development**

Gain practical, in-demand technical and professional skills that will set you apart in the global job market.

**•Networking & Career Growth**

Expand your professional network by connecting with industry leaders and peers from around the world.

Companies and Students Hand in Hand:

Building the Future Workforce

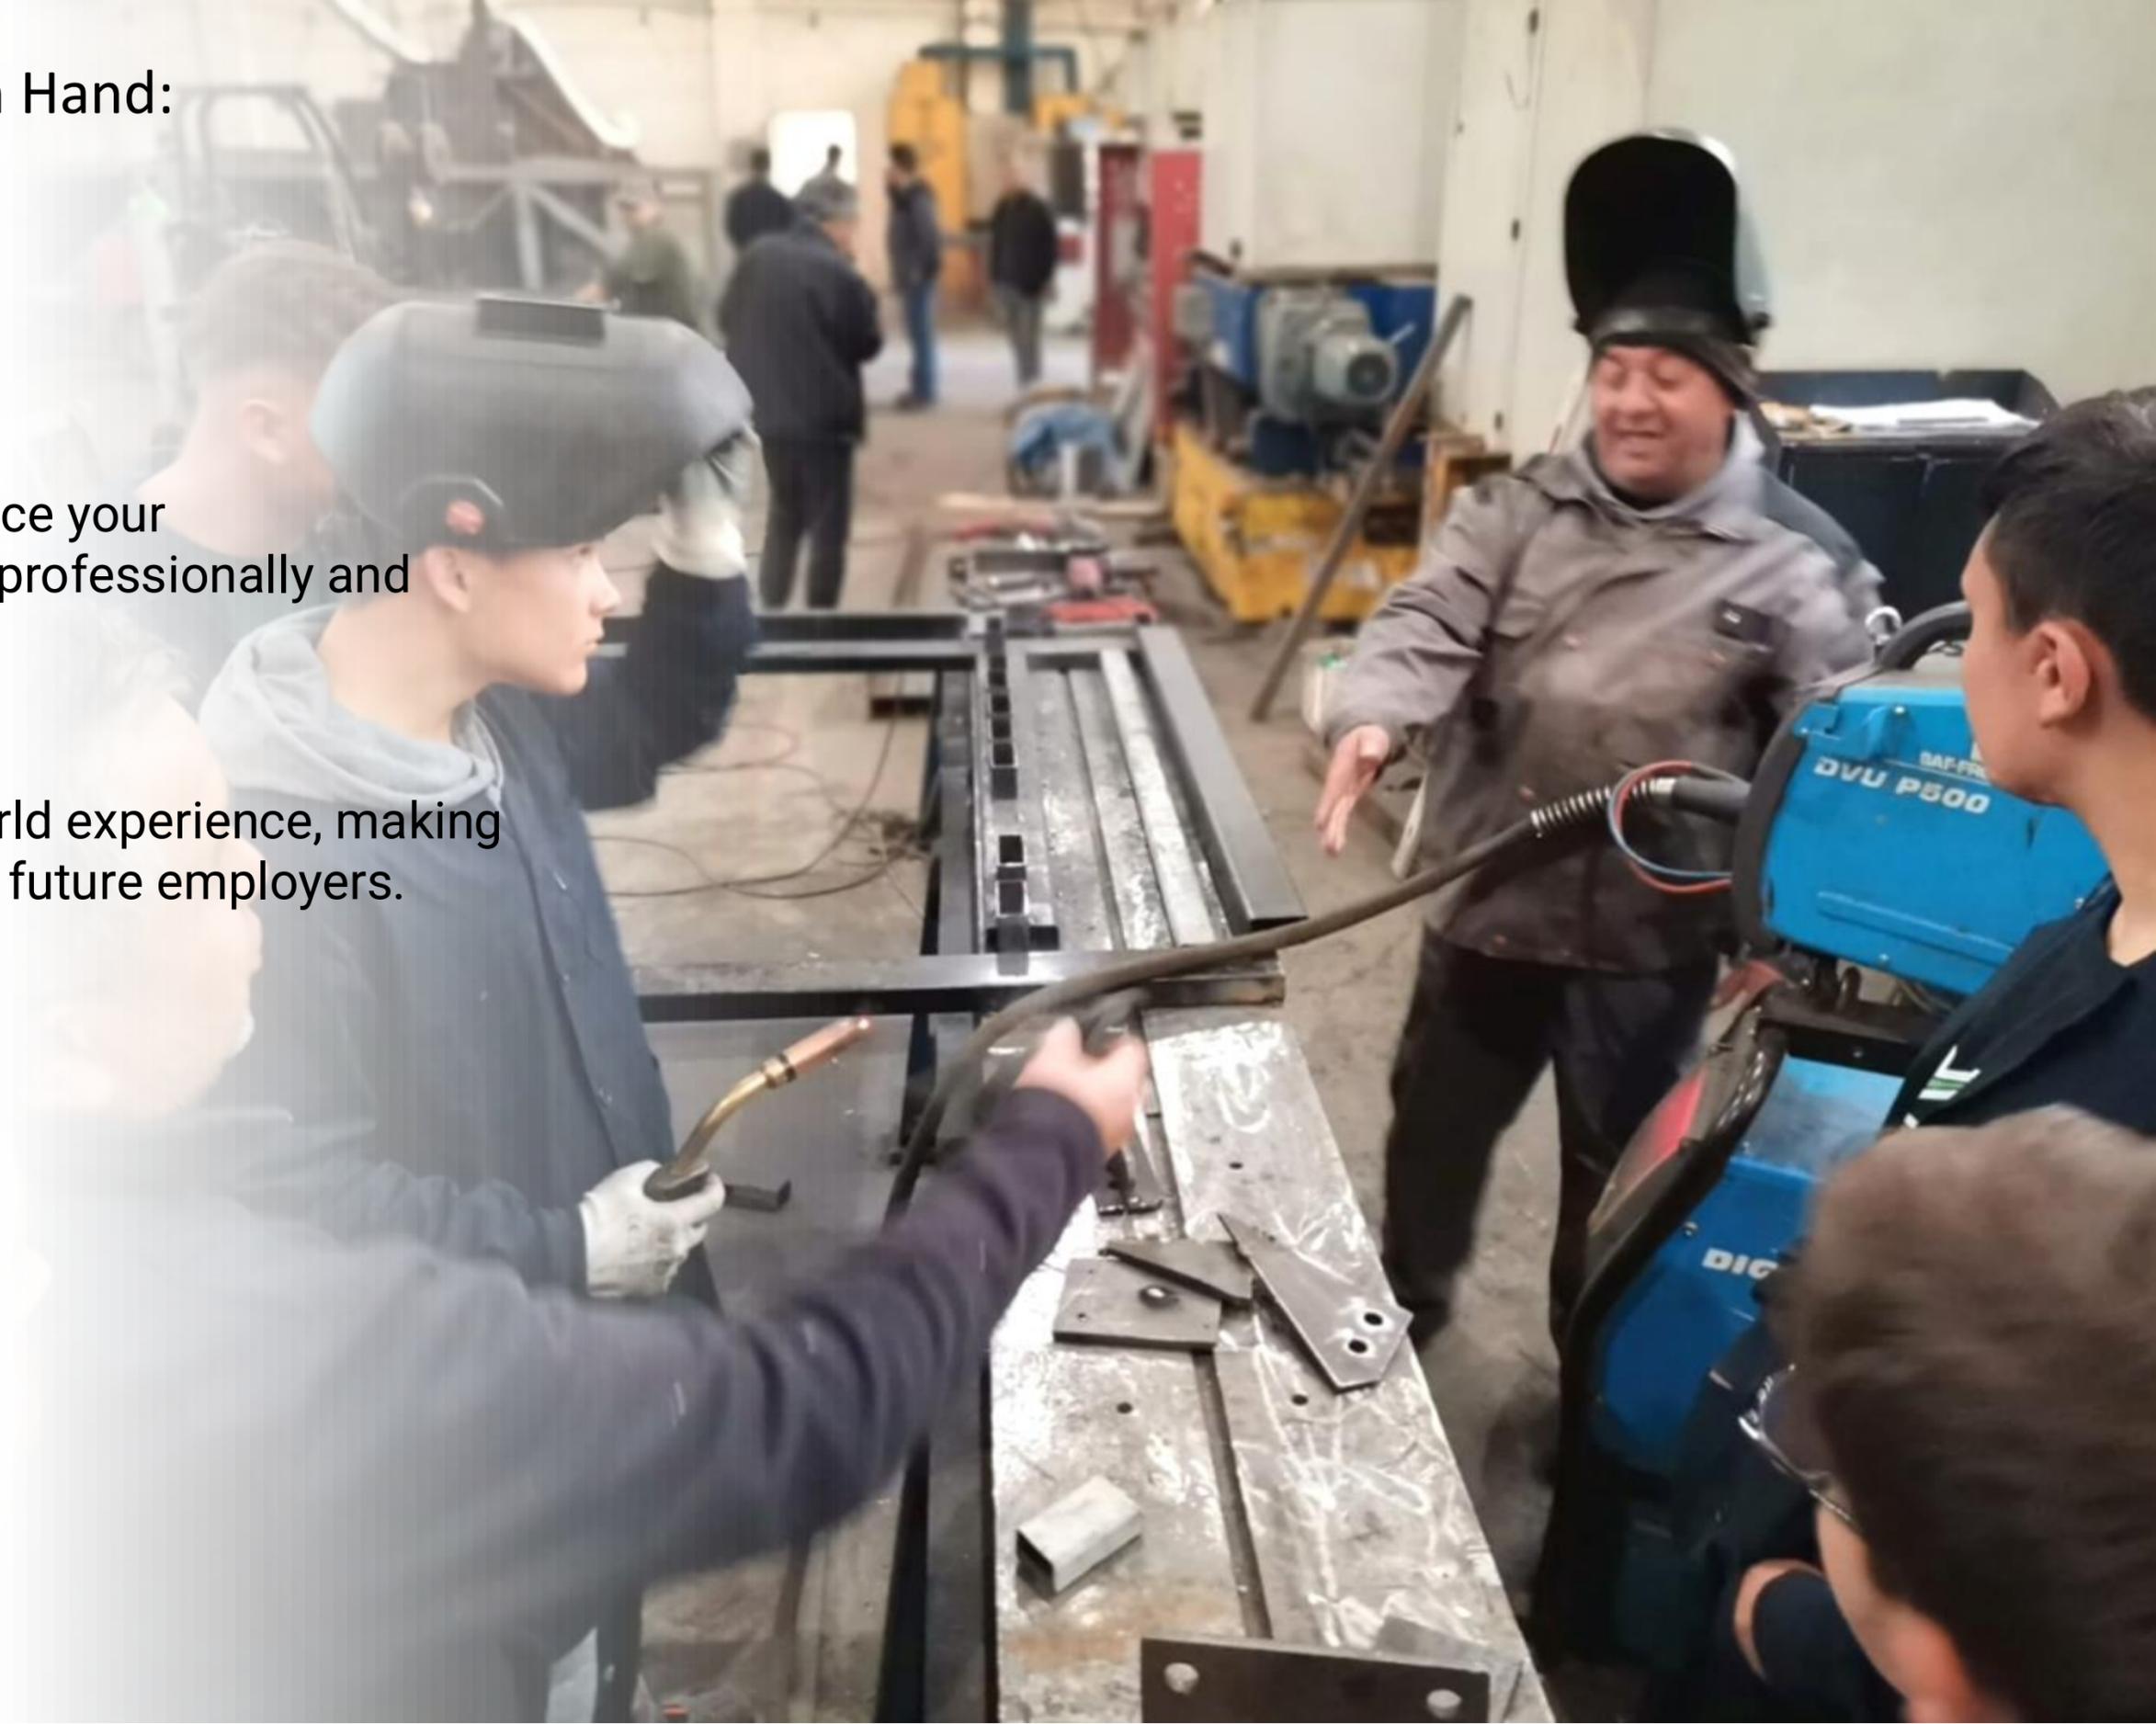

**For Students:**

**•Cultural & Personal Growth**

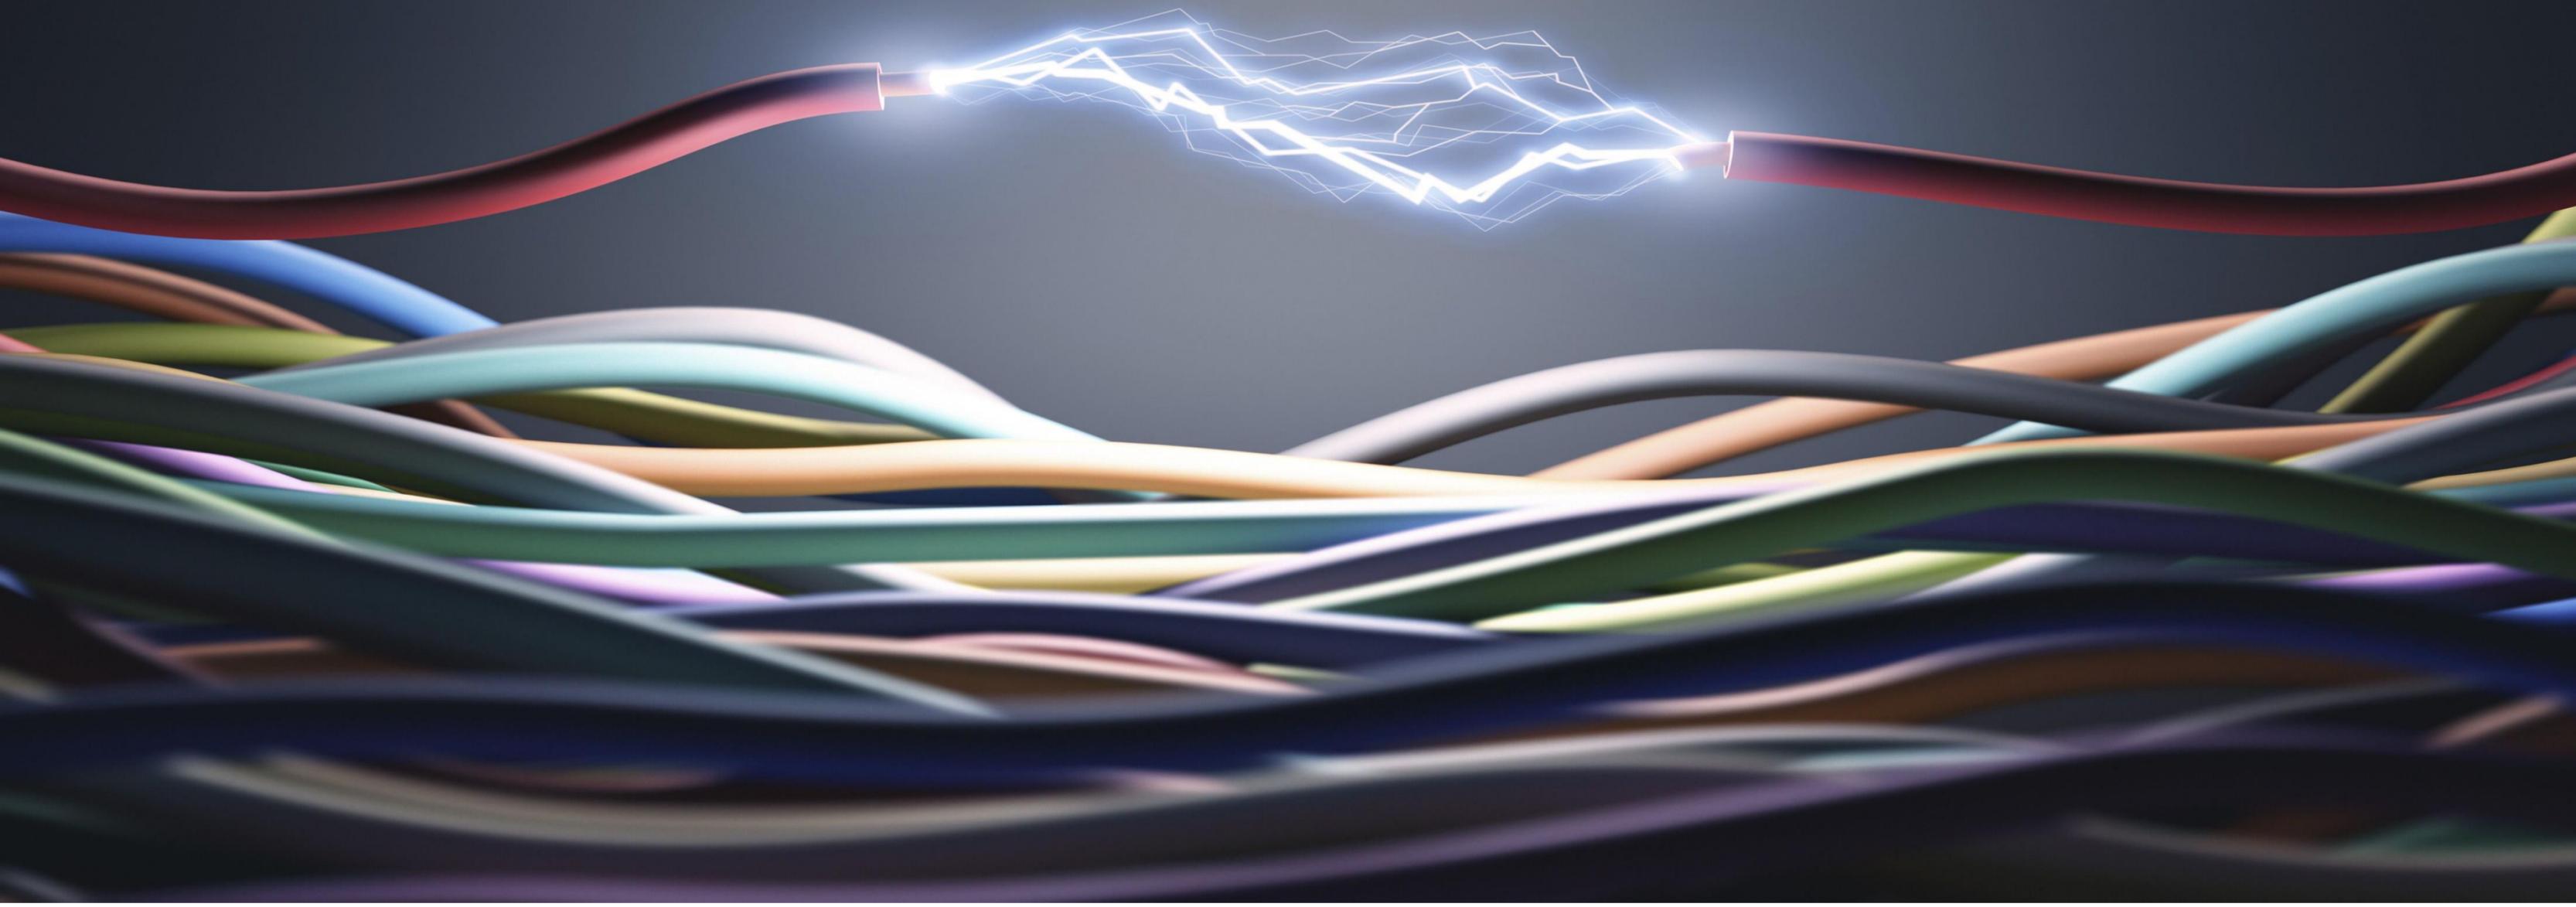

Adapt to diverse work cultures, enhance your communication skills, and grow both professionally and personally.

**•Confidence & Employability**

Build self-confidence through real-world experience, making you a more competitive candidate for future employers.

# Empowering Vocational Schools: A Complete Journey of Collaboration

Empowering Vocational Schools:

A Complete Journey of Collaboration

**Empowering Vocational Schools:**

**A Path to Partnership**

At our organization, we empower vocational schools to find project partners for Erasmus+ programs, enhancing vocational education and research.

# Empowering Vocational Schools: A Complete Journey of Collaboration

## Building Bridges:

### Connecting with Partners

We connect schools across Europe with suitable partners and assist in crafting compelling outreach emails that highlight mutual benefits.

# Empowering Vocational Schools: A Complete Journey of Collaboration

## Face-to-Face Engagement:

### Conducting Preparatory Visits

To discover opportunities that best fit their context, we conduct preparatory visits to different countries. These visits allow schools to meet potential partners in person, fostering trust and collaboration right from the start.

Empowering Vocational Schools:  
A Complete Journey of Collaboration

**Navigating Success:**

**Supporting Development**

As partnerships develop, we provide ongoing support in project planning and management, ensuring schools receive valuable resources.

Empowering Vocational Schools:  
A Complete Journey of Collaboration

**Unlocking Potential:**

**Building Independence**

Over time, schools gain the skills and confidence to independently navigate the entire project process. By the end of our collaboration, they are equipped to lead their own Erasmus+ initiatives.

Empowering Vocational Schools:  
A Complete Journey of Collaboration

**Creating Impactful Projects:**

**A Vision For Growth:**

With our assistance, vocational schools can create impactful projects that foster long-term growth and collaboration in vocational education across Europe.

Isparta is a charming city in southwestern Turkey, known for its beautiful natural landscapes, fragrant lavender fields, and being the heart of rose oil production. Often referred to as the "City of Roses," Isparta is located near popular tourist destinations such as Antalya, with its Mediterranean beaches just a short drive away, and Salda Lake, famous for its white sandy shores and crystal-clear waters. The city is also close to Pamukkale, known for its stunning thermal mineral springs and terraces. With its rich history, natural beauty, and proximity to major attractions, Isparta is a wonderful destination for those looking to explore the unique culture and scenery of Turkey.

# Internship Opportunities in Turkey: Sectoral Overview

The background of the slide is a complex, futuristic digital circuit board. It features a central, large, glowing 'V' shape that is illuminated from within, casting a warm orange and yellow light. The rest of the board is dark blue with intricate patterns of lines, dots, and rectangular shapes, all of which are subtly lit with a cool blue glow. The overall aesthetic is high-tech and modern.

# Looking to the Future: Erasmus+ and New Horizons in VET

## Global Skills

The Erasmus+ programme helps students to develop multicultural and multilingual skills that enable them to compete in the global labour market. This will increase international career opportunities in the future.

## Innovation and Entrepreneurship

The programme encourages the spirit of innovation and entrepreneurship by introducing students to different ways of doing business. This increases the potential to create new business opportunities and start-ups in the future.

## Sustainable Partnerships

Sustainable Partnerships International partnerships established through Erasmus+ are developing into long-term collaborations between VET organisations and companies. This means more student exchanges and joint projects in the future.

## Digital Transformation

The programme prepares students for the digital business world of the future by promoting the use of digital technologies in vocational education. This will bring innovative approaches such as remote internships and virtual reality applications.

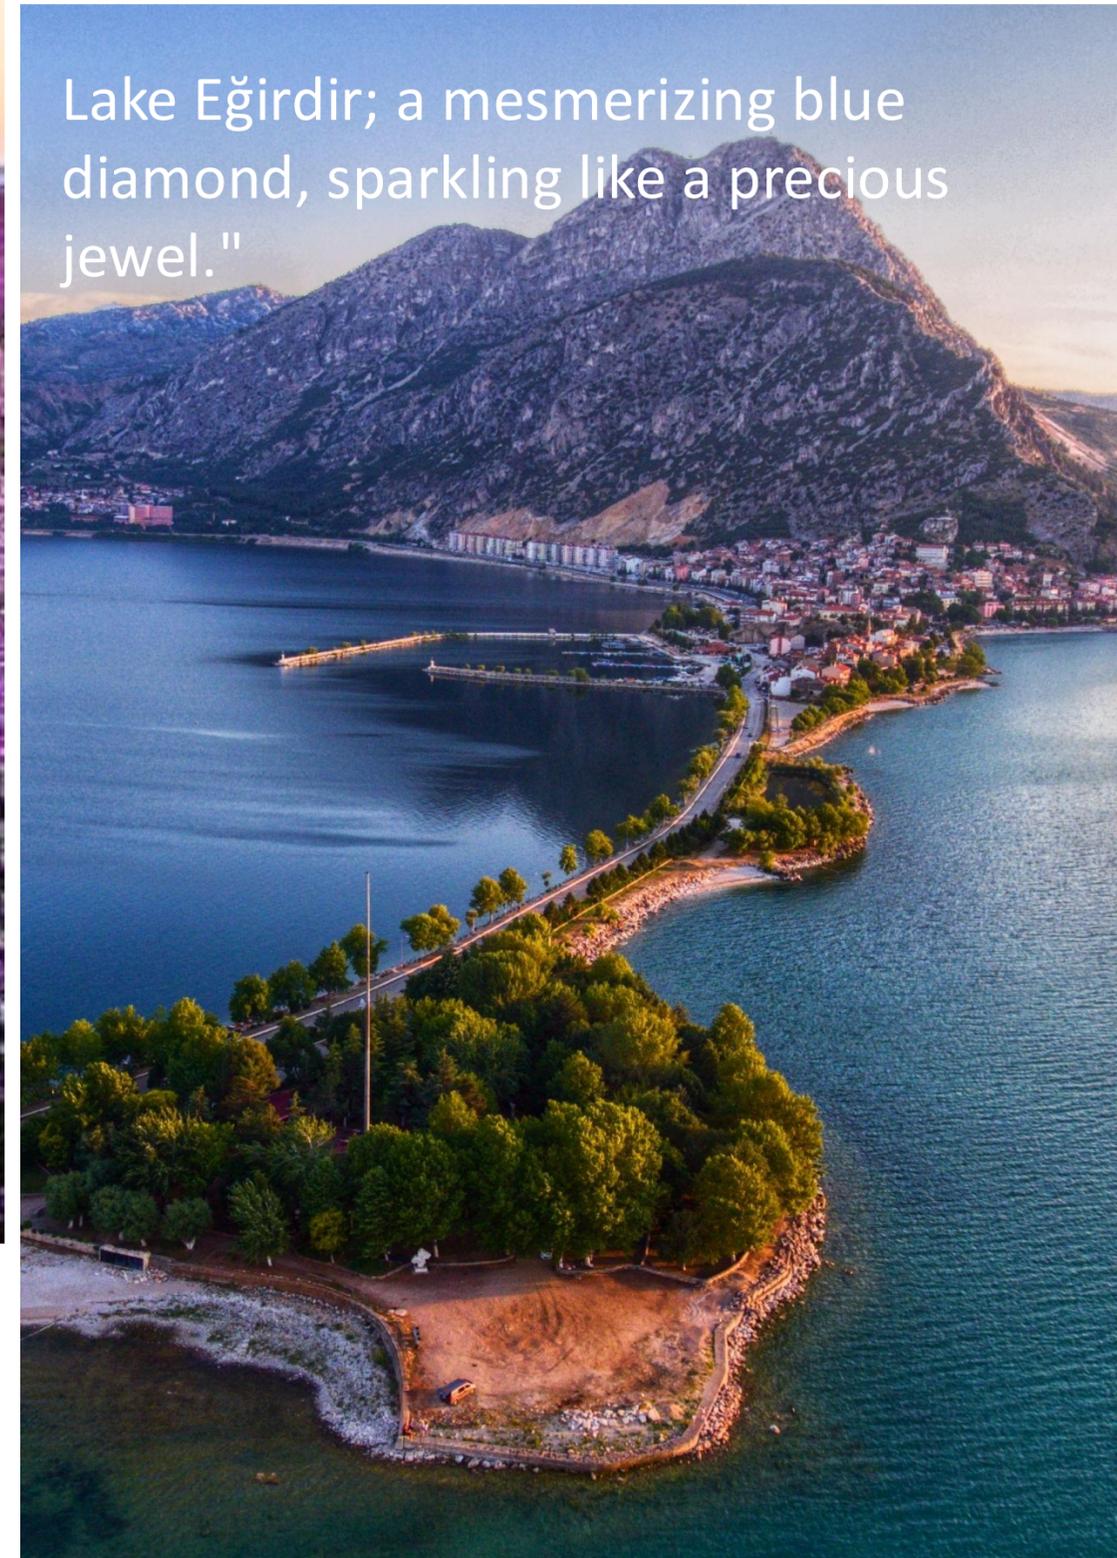

Lake Salda, known as the Maldives of Turkey

Lavender Fields, known as the purple carpets of Isparta

Lake Eğirdir; a mesmerizing blue diamond, sparkling like a precious jewel."
