# LTA PEACE

PEACE – «*Participation Erasmus Alumni for Civic Engagement*» is a Long Term cooperation activity coordinated by Italian Erasmus+ National Agency INDIRE on increasing civic, political participation among EU citizens.

## Why civic engagement?

- Low interest in the social, civil and political life of the host nation
- International employment is still found to be uncommon today
- Permanency considered «Temporary»
- Presence of barriers towards integration (for example language barriers)

## LTA PEACE goals

Reinforcing networks and links with territories

Promoting synergies among Erasmus+ Alumni and Ambassadors networks all over Europe

Spreading knowledge about Erasmus+ opportunities and encouraging participation of new beneficiaries

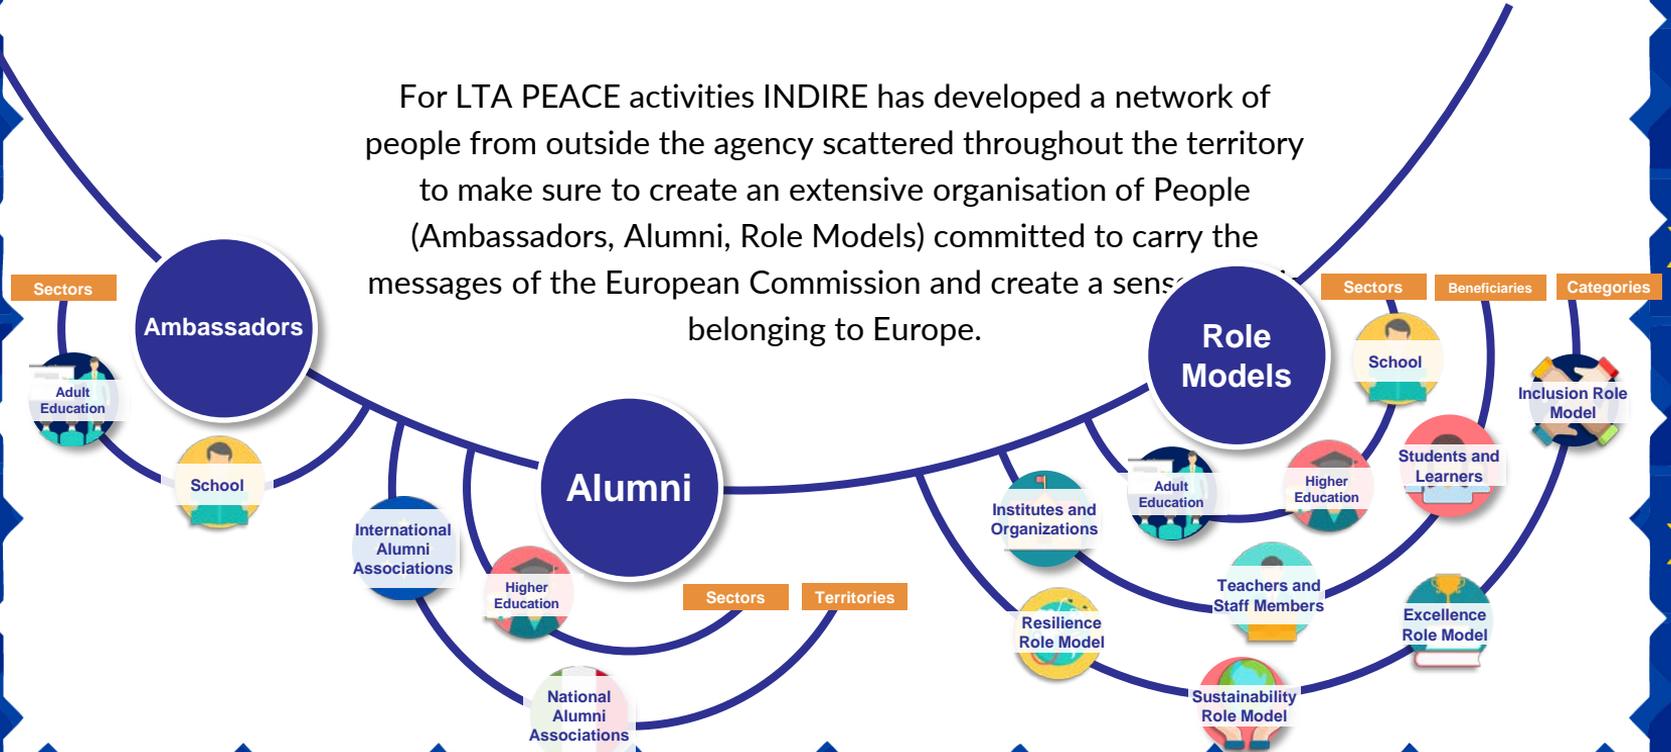

Enhancing Erasmus+ Mobility experiences contribution to Civic engagement and European identity

Strengthening active citizenship and awareness of European values for young people

# IT NA Erasmus+ INDIRE network

For LTA PEACE activities INDIRE has developed a network of people from outside the agency scattered throughout the territory to make sure to create an extensive organisation of People (Ambassadors, Alumni, Role Models) committed to carry the messages of the European Commission and create a sense of belonging to Europe.

# PEACE pillars:

The PEACE LTA targets important pillars concerning the active participation and civic engagement:

## Pillar 1

**Supporting active citizenship and ethics** in lifelong learning. Promote new opportunities for people's social and civic engagement through formal and non-formal learning activities, as well and to raise awareness on the EU common values - human dignity, freedom, democracy, inclusion, and solidarity according to the EU Charter of Fundamental Rights.  
media literacy.

Desk and on the field analysis and working table and training activities for the network

## Pillar 2

**Sharing best practices and networks:** Tackling the citizens' limited participation in its democratic processes and their lack of knowledge about the European Union, through the promotion of networks and good practices in the field of formal and informal learning activities.

Dissemination activities widespread throughout the territory through the network of external actors

## Pillar 3

Supporting scale up in **management and tools of Alumni/Ambassadors/Role Model Network:** it aims to integrate the impact and fostering synergies among the already existing Networks through management activities and new tools towards the exploitation of the possibilities of use at European level.

Collection of information, skill, competences and educational field of the actors involved to populate the Data hub
