Project Description

Es un error frecuente que el primer producto del proyecto sea un análisis de necesidades. El análisis debería haberse hecho previamente y explicarse aquí. Es muy importante definir el colectivo objetivo del proyecto y explicar por qué la mejor manera de afrontar la necesidad que se ha detectado es mediante la cooperación transnacional.

En el caso de que no haya productos intelectuales, en este apartado se deben explicar todos los resultados (concretos) que se esperan obtener del proyecto.

No existen impedimentos en la experiencia previa que tenga ni la propia asociación estratégica ni los socios que la forman. Se debe explicar en detalle cual será la aportación del proyecto sobre lo ya existente sobre ese tema. El proyecto debe tener entidad propia al margen de su vinculación con colaboraciones previas o futuras.

Management

Funds for Project Management and Implementation

Funds for 'Project Management and Implementation' are provided to all Strategic Partnerships based on the number of participating organisations and duration of the project. The purpose of these funds is to cover diverse expenses that any project may incur, such as planning, communication between partners, small scale project materials, virtual cooperation, local project activities, promotion, dissemination and other similar activities not covered by other types of funding. A partnership may receive a maximum of 2750 EUR of 'Project Management and Implementation cost' per month

Organisation Role ↕	Grant per organisation and per month ↕	Number of Organisations ↕	Grant ↕
Coordinator	500.00 EUR	1	18000.00 EUR
Partner	250.00 EUR	2	18000.00 EUR
Total		3	36000.00 EUR

En el caso de que el proyecto incluya productos intelectuales, en este apartado deberán detallarse todas las actividades del programa de trabajo que no tienen otra categoría específica. Si no va a haberlos, deberá explicarse completamente el programa de trabajo del proyecto y los resultados que se proponen conseguir.

Transnational Project Meetings

Transnational project meetings: how often do you plan to meet, who will participate in those meetings, where will they take place and what will be the goal?

MUY IMPORTANTE. Las reuniones transnacionales y las actividades de movilidad son dos cosas diferentes. En esta sección, se trata de reuniones de gestión del proyecto, mientras que la movilidad para formación se describe más adelante. Es importante aclarar y justificar si va a haber encuentros bilaterales o en los que no participen todos los socios. Si en algún caso algún socio va a llevar a más de 1 o 2 personas a un encuentro, debería justificarse muy bien la necesidad.

El programa de trabajo debe ser realista y estar bien estructurado/temporalizado. Incluir los acuerdos que se llevarán a cabo con el resto de los socios en lo relativo al control del presupuesto (distribución temporal de los pagos, etc.)?

How will the progress, quality and achievement of project activities be monitored? Please describe the qualitative and quantitative indicators you will use. Please give information about the involved staff, as well as the timing and frequency of the monitoring activities.

Es importante proponer medidas realistas (Por ejemplo, no comprometerse a emitir informes internos periódicos o evaluaciones externas salvo que realmente vaya a ser viable llevarlos a cabo).

How will you evaluate to which extent the project reached its results and objectives? What indicators will you use to measure the quality of the project's results?

El plan de autoevaluación y seguimiento debe estar planificado en el momento de la solicitud. No es un plan que haya que realizar durante el proyecto.

Why do you need this project?

Podrá indicarse la experiencia previa que se ha tenido en la resolución de conflictos en proyectos previos. Se debe minimizar el riesgo de problemas como el reemplazo o la salida de socios del proyecto.

Activity Details (C1)

In this section, you are asked to provide details about this specific activity.
 The section consists of two parts: Activity Details and Groups of Participants.

In the first part (Activity Details) you are asked to provide information about the planned activity as a whole (e.g. its venue, duration, etc.), to define the activity's lead organisation, and to list the other participating organisations. The lead organisation is typically the one hosting the activity in its premises. In case you decide to organise the activity outside of the lead organisation's premises, you must respect the detailed rules provided in the Programme Guide and you need to provide an explanation for this choice as part of the activity description. The other participating organisations are all project partners who will send their participants to take part in the activity. Adding a partner organisation to the list of participating organisations will allow you to ask funding for their participants in the second part of this section.

In the second part (Groups of Participants) you are asked to provide some details about the participants who will take part in this activity. The main purpose of this section is to calculate the budget that the project will receive for the participants' travel, individual support and other expenses. The participants are organised in groups for easier calculation. Each group and its budget are linked to their sending organisation.

To request funds for participants in this group, please complete the information below.

Please note that there are two categories of persons who can be funded: people directly taking part in the planned activity (always referred to as participants) and accompanying persons. Accompanying persons include teachers or other staff travelling together with pupils, as well as assistants supporting participants with special needs.

Grant rates for Individual Support are different for participants and accompanying persons. Therefore, you need to specify the requested duration for Individual Support separately for the two categories of persons. At the same time, grants for travel are the same for participants and accompanying persons. Therefore, for travel you should add together all persons requiring a grant.

No se indica el coste real, sino el que se solicita a la Comisión Europea.
 Conviene tener muy presente que la categoría tiene el nombre de Costes excepcionales y no simplemente de Otros o Subcontrataciones. Por lo tanto, solo podrán financiarse costes derivados de características muy particulares que pueda tener un proyecto en concreto.
 No se considerará elegible ningún coste que no se haya justificado debidamente. Existiendo siempre la posibilidad de que la Agencia Nacional practique ajustes respecto a lo solicitado.

Impacto interno del proyecto en la entidad: se puede distinguir entre profesorado o personal propio, alumnos o personas en formación y colectivos que hayan participado en el mismo.

0/5000

What is the desired impact of the project at the local, regional, national, European and/or international levels?

Impacto externo en el entorno de la institución.

0/5000

How will you measure the previously mentioned impacts?

Es fundamental ser muy concretos y muy realistas a la hora de hablar del impacto del proyecto, evitando las generalidades. El impacto debe ser cuantificable o medible utilizando indicadores.

Dissemination and Use of Project's Results

0/5000

You are requested to make plans for the dissemination of your project results. Please provide answers to the questions below.

What will be the target groups of your dissemination activities inside and outside your partnership?

Please define in particular your target audience(s) at local/regional/national/EU level and motivate your choice.

¿Cuál es el colectivo destinatario y cómo vamos a llegar a él? Lo importante no siempre es la cantidad o el número de destinatarios sino la efectividad de los medios de difusión que utilizemos para llegar a nuestro público. En ocasiones puede tratarse de medios más masivos y en otros de medios más específicos.

Which activities will you carry out in order to share the results of your project beyond your partnership?

Who will be responsible for the dissemination activities within your partnership and which specific expertise do they have in this area? What resources will you make available to allow for the proper implementation of your dissemination plans?

0/5000

Es importante proyectar un plan de difusión concreto y definido, y luego llevarlo a la práctica, es decir, debe ser realista.

Erasmus+ has an open access requirement for all materials developed through its projects. If your project is producing intellectual outputs/tangible deliverables, please describe how you intend to ensure free access for the public to a digital form of this material. If you intend to put any limitation on the use of the open licence, please specify the reasons, extent and nature of this limitation.

How will you ensure that the project's results will remain available and will be used by others?

0/5000

Hacer mención a páginas web o difusión en redes sociales debería ir siempre acompañado de otras medidas que garanticen que dichas webs o perfiles serán a su vez debidamente difundidas para que tengan el número de visitas e interacciones de los usuarios deseados.

If relevant, please provide any other information you consider appropriate to give a full understanding of your dissemination plan and its expected impact (e.g. how you have identified which results are most relevant to disseminate; how you will ensure the involvement of all partners; how you see synergies with other stakeholders, etc.)

Sustainability

What are the activities and results that will be maintained after the end of the EU funding, and how will you ensure the resources needed to sustain them?

Unless otherwise specified in the Programme Guide, the receiving National Agency must be located in the country of the applicant organisation.
