**Working language:**

**Number of Spanish participants:**

Up to 2 participants within the field of school education

**Profile of participants:**

The pre-existing knowledge of eTwinning is not necessary. However, participants must be registered in eTwinning before the starting date of the conference.

**Themes and goals of the event:**

The main aim of the seminar is to promote the synergies between Erasmus+ and eTwinning, inspire participants in using eTwinning portal for communication and collaboration in Erasmus+ KA2 projects and to help create networks among teachers involved in Erasmus+ and eTwinning projects.

**Expected results:**

eTwinning as a portal for communication and collaboration in Erasmus+ School-to-school projects will be introduced to the participants and they will be offered the opportunity to meet with eTwinning users. On the other hand, the eTwinning participants will be given the opportunity to learn about the Erasmus+ programme, especially about their possibilities in the KA2 School-to-school projects.

The participants themselves are expected to take active part in the seminar, to become familiar with eTwinning and its possibilities in KA2 projects and to make contacts with teachers from other countries in order to find partners for KA2 projects with the use of eTwinning.

They are also expected to be willing to share their experience with KA2 projects (if they have any) with eTwinning teachers unfamiliar with the Erasmus+ programme.
