**LET'S GET OUR HANDS ON THE
'BUSINESS'**

But first ... a definition

A Strategic Partnership for what purpose?

(main reason, main interest / topic)

What would you like to reach / achieve with such
a project?

Main target group (profile, age, characteristics...)

What made us come together?

Main theme or topic of a possible future project?

What do we want to improve / change / make better in our reality?

Who is involved (partners + countries)

A way to define aims in international project, as concrete as possible

EACH partner defines the concrete results they expect to happen with the project in short term but also longer terms TOWARDS:

- Young people we work with**
 - Our organization/ school / training center...**
-
-

Project building I

Framing a possible cooperation

You have around 1 hour. First take the time to share about your reality, particularly:

- *Target group*
- *Experiences in international cooperation*
- *Main concern / needs they have at local level*
- *...*

Then when it is done, you can answer collectively to the following questions:

1/ Why would you like to organise a Strategic Partnership project together? What are the different reasons that convince you to work together?

2/ To which needs of your local realities should/could it answer?

3/ Brainstorm on possible ideas / topics of the project? (if you have time, start to make priorities in the different ideas)

**TIME FOR FINGERS AND
LIPS**

**1 WORD: HOW DO YOU FEEL
CONCERNING THIS PROCESS**

THE CORE IDEA

OPEN OR CLOSED

WORKING SPACE

Project building – Action plan

Decide together about the main steps/milestones to take, from now on till the realisation of the Strategic partnership. Imagine it like a travel, you know the departure station (now) and the arrival station ...create as many stations as main steps...

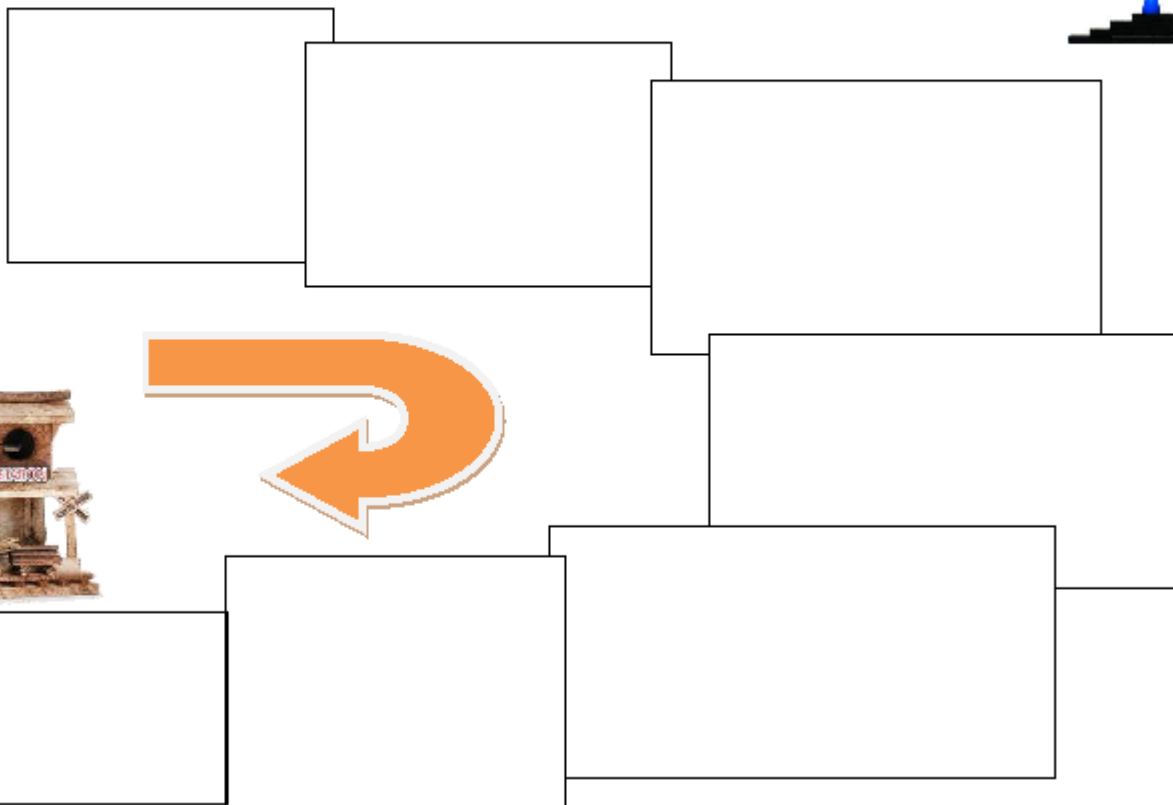

Departure station:

When? Now
Where? Copenhagen

Arrival station :

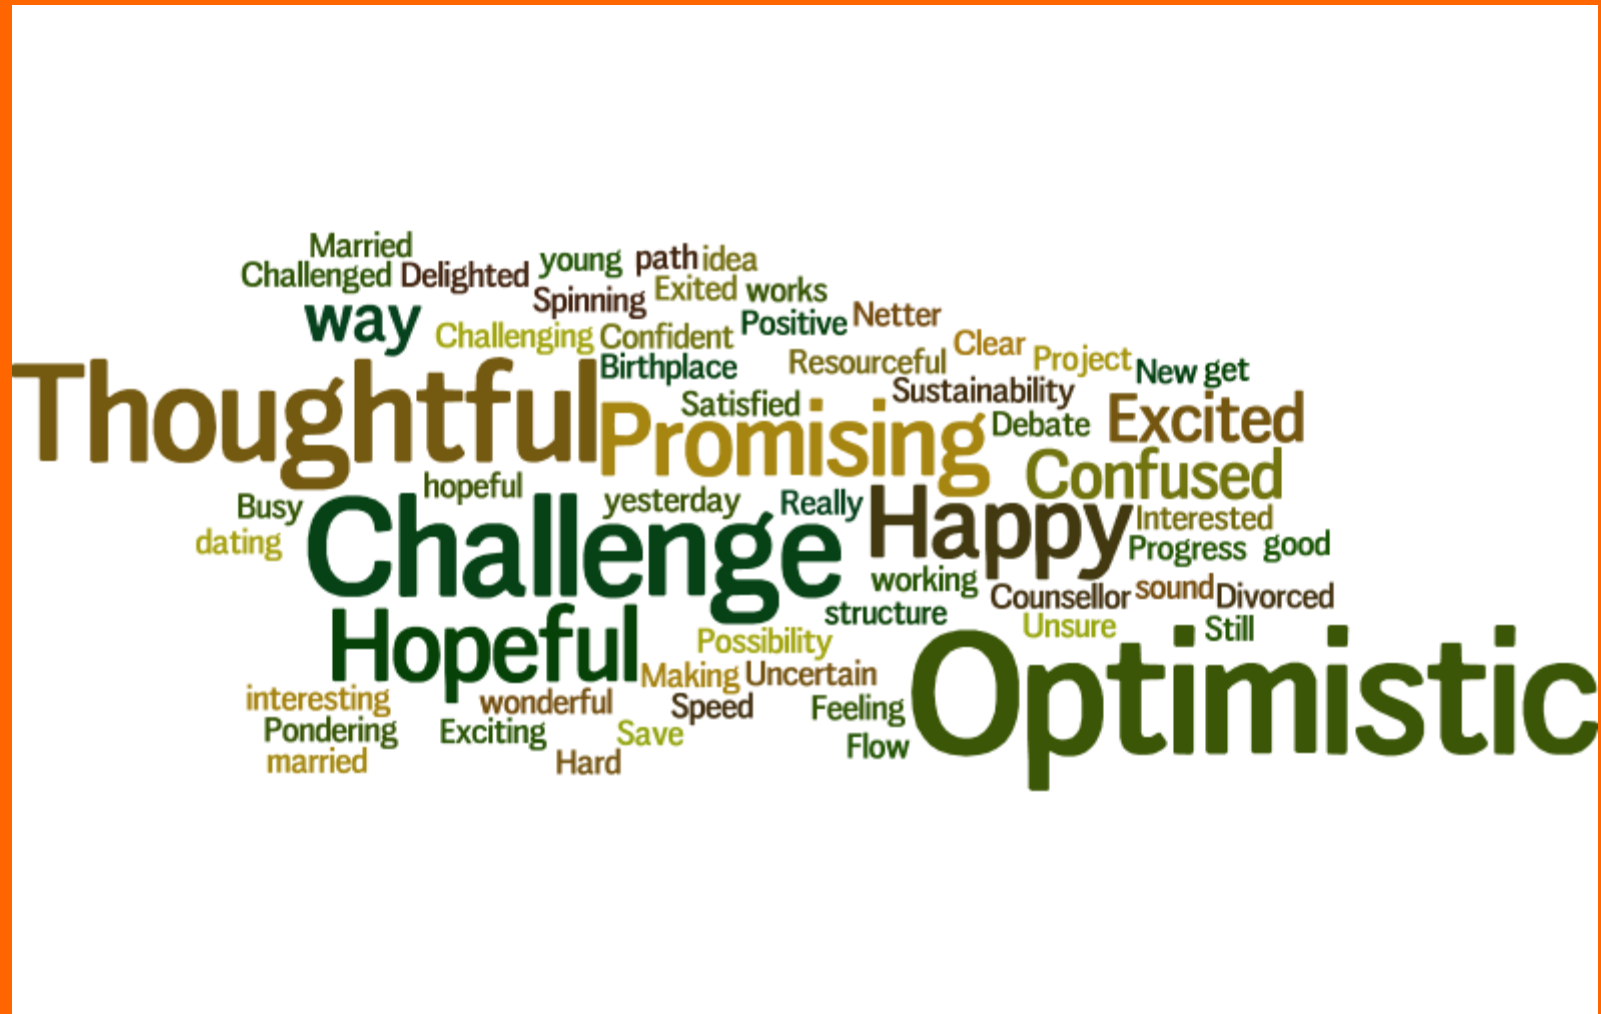

When?
Where?

The 'wordle' of Wednesday

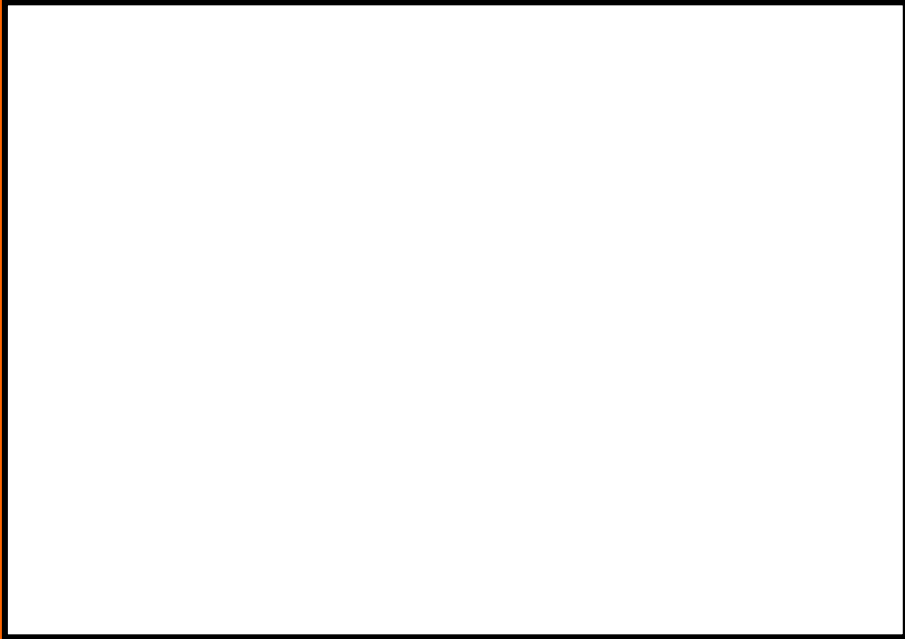

The 'wordle' of Thursday

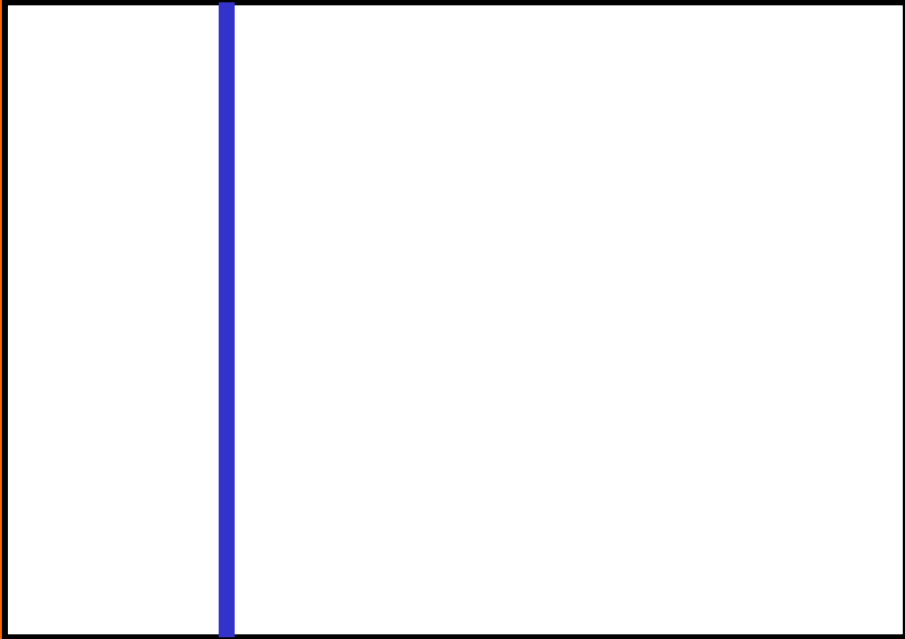

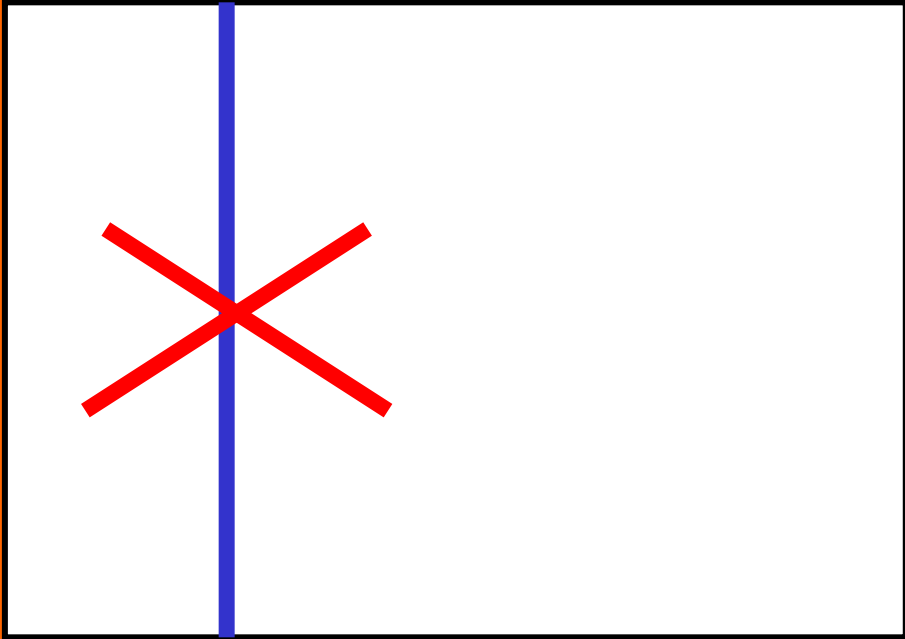

The 'wordle' of Friday
